The CS800 Stepper combines the familiar dependent stepping action with an arched step-rail design and impressive 16" maximum step height for an effective lower body workout. The narrow 2" pedal spacing (Q-Factor), large cushioned pedals, and solid handrail design combine to give you an incredibly comfortable and space-efficient cardio unit.

CS800 STEPPER

- 16-inch maximum step height with 20 levels of resistance satisfy the needs of beginners or advanced exercisers
- 2 degrees of inversion at each foot pedal places the user in an anatomically correct position
- Arched step-rail design allows for a more natural stepping motion
- Padded handlebars surround the user for a secure and stable workout
- Shielded concave roller wheel system for superior stability and durability
- Ease of use allows users of any fitness level to get an effective workout
- Adjustable cooling fan and dual storage trays

CS800 STEPPER

CS800 CONSOLE FEATURES

The electronics in the CS800 are designed to provide intuitive operation. The console features a large easy-to-read display with a variety of program options for users of all fitness levels, an integrated fan to keep clients cool, and a USB charging port for keeping their device charged. The conveniently located hand pulse grip sensors provide heart rate monitoring on demand.
